

## Bar Harbor Brass Week 2010

### Private Lesson Schedule

College participants are scheduled for one one-hour lesson during the week, high school students receive one 30-minute lesson. Lesson times may be extended if time permits at the discretion of the instructor. If you wish to swap lessons with someone else, that is fine as long as both students and teacher agree. Teachers may reschedule lessons for other times not on the schedule as long as it works for you and space is available. Rooms may change. If you would like to try to get an extra lesson with a faculty member, that is entirely up to the two of you. The faculty member may charge for lessons beyond the one already scheduled. Note that some lessons start before the end of brass choir--students with lessons may leave rehearsal early.
